

AVL VFM™

Music gaming for music lovers

For Product Information & Pricing - Click Here To Visit BMIGaming.com | Or Call Us : + 561-391-7200

Neon FM™ is an electrified rhythm and action game for arcades and mobile. Players pound the five colored panels with their hands to the beat of the music and are scored on their timing.

PAY PER SONG

"A la carte" song selection means shorter, attractively-priced games. Lines move quickly, and players always have enough spare change to play a game or two!

FAIL NO MORE

Performing poorly doesn't end the game; we just reduce the difficulty while the game is running!

SMARTPHONE LOGIN

Neon FM™ uses the same patent-pending QR login system as our other games to quickly track players' progress and personalize the game experience. Just point and shoot with your phone to log in!

LOCAL/ONLINE/MOBILE MULTIPLAYER

Neon FM™ machines each support one player, and multiple machines can be linked to support infinite simultaneous players. Players can also compete online or choose to not compete at all and do their own thing!

BEGINNER MODE

Is this a player's first music game? We reduce the number of buttons to 3 and are much less strict on timing.

SLIM DESIGN

Neon FM™ leaves plenty of room for multiple machines.

REDEMPTION

Players earn spins on our prize wheel through play, enabling big jackpot wins while keeping payouts random and unexploitable. (Optional feature)

NEW TRACKS EVERY WEEK

Every week we release new music to the game through online updates. Players will check in on your arcade often to see what's new! (Optional feature, available through subscription)
